

## Innovation / IP Manager

### The Company

RTDS Group (RTDS) is the leading Austrian consultancy specialised in the development and implementation of EU-funded research & innovation (R&I) projects. Having the mission to move European research to the market, RTDS has recently been awarded their eleventh H2020 project, including the fifth as Coordinator.

RTDS is particularly strong in sustainability projects in the bio-and circular based economy, renewable energy and industry decarbonisation but is also involved in a range of industry-relevant technology development projects. We are looking to hire:

## Innovation / IP Manager

### Job description

The **Innovation / IP Manager** will be responsible for managing results and leading innovation within EU funded research & innovation projects which includes:

- Co-designing and rolling out IP management strategies in multi-disciplinary consortia
- Ensuring partner understanding and compliance to Grant and Consortium Agreements
- Monitoring and assessing development of results
- Developing business models and agreements to exploit results with project partners
- Contributing to project website & social media content (occasionally)

### Your profile

- University degree preferably in IPR / business administration, but also highly communicative science / engineering graduates are welcome to apply
- Qualifications / experience in IPR, innovation management & business models is preferred
- Project management / organisational skills and able to manage diverse partner interests
- Excellent written and spoken English and/or German. Native speakers are preferred
- 2+ years' experience in EU research & innovation projects (H2020/LIFE/CEF)
- Knowledge / experience in data management and open science issues is a plus
- Basic knowledge of Wordpress and use of social media is a plus

RTDS offers full time employee positions from €48,000 gross annually depending on experience and qualifications. In cases, part time positions may also be possible.
